SIR JOHN'S GOVERNMENT!

CHEERING RAILWAY NEWS REMOVAL OF STEEL RAILS STOPPED!

[Saturday Morning, Nov. 2nd, 1878.]

A Telegram has been received from the Department of Public Works, Ottawa, ordering that the further removal of the steel rails should be immediately stopped, and giving instructions to the authorities here to see that the order is obeyed.

This looks like an earnest on the part of Sir John's Government that the Dominion, under its Conservative Leader, will carry out its pledges to the Province, and that good faith has once again commenced its reign.

The *Robson, Higgins, Barnard and Oppenheimer* ring is at last broken!!
